# COMMERCIAL WATER MANAGEMENT

Online Water  
Management Platform  
for your business

Consumption,  
Flow and Pressure  
monitoring for your  
water reticulation

*We connect your existing municipal  
meter (or check meter) to our battery-  
operated, GSM-based data logger  
and monitor your consumption and  
flow in 15-minute increments*

*The data is then presented in an  
easy-to-use, intuitive and secure  
management platform (also  
available as an App). Through  
online monitoring, our customers  
can expect to see a reduction in  
their cost of water, a reduction  
in water losses and accurate  
municipal reconciliation*

### Technolog Product Features

- **Remote monitoring** with a 5-year battery life
- Loggers **measure consumption and flow** in 15-minute increments and downloads the data once-a-day to our cloud-based servers
- **5-year storage of data** in the cloud
- Meters are monitored by connecting the GSM-based logger onto existing meters using meter manufacturer-supplied reed switches and pulsars
- Ability to **monitor two meters simultaneously**
- Technolog can be installed with IP68 housing and/or **vandal proof housings** as optional extras

AquaStats - powered by **Zednet**

- **Secure access** for one or **multiple users**
- **Permissions-based** user access
- **Monitor multiple sites** across multiple sites and/or countries
- **Identify leaks** through night flow monitoring and reporting
- **Automated weekly or monthly reports** to multiple users
- **Automated flow and consumption alarms** for early warning leak identification
- **Alarms can be consumption - or time-based** depending on the customer's needs
- **Accurately provide meter reading** to municipality
- **All data can be downloaded and exported easily**
- **Fully customizable solution** that can be white labelled for property management entities
- **Automated calculations** of water lost to leaks

Warranty: This product is warranted to be free from defects in materials and workmanship for a period of two years from the date of installation, provided that the product is used in accordance with the installation, maintenance and testing requirements described in this Installation and Owners Manual. Failure due to: incorrect installation; misuse; water ingress from negligence; uncompleted prescribed service schedules; discharged, leaking and corroding batteries, are not covered by the warranty. The warranty is limited to the replacement of the faulty parts or components, and does not cover the cost of removal and/or re-installation of the replacement components or device. The warranty becomes null and void if the unit has been tampered with, repaired, or damaged by any unauthorized person. The national distributor responsible for this warranty reserves the right to inspect and test the products for the purpose of determining the extent of any defect and the validity of any claim made under this warranty. For specific warranty terms and exclusions and detailed warranty and indemnity conditions applicable and relating to your country or state, refer to our website [www.aquatrip.co.za](http://www.aquatrip.co.za).
